Crusher/Aggregate Duty Motors

LEESON's Crusher/Aggregate Duty Motors are designed and built to withstand the demanding environments of the aggregate, cement and mining industries.

FEATURES

- 50-250 HP
- Totally Enclosed Fan Cooled (TEFC)
- 3 Phase, 60/50 Hertz
- 1800 and 1200 RPM
- 326T - 449T Frame
- Cast iron construction
- Rigid Mount
- Roller Bearing - Drive end only for belted load applications
- 4140 grade shaft material
- Normally closed thermostats

BENEFITS

- NEMA Premium efficiency for lower operating costs in your applications
- Design C for higher locked rotor torque and high break down torque
- Epoxy paint for corrosion resistance
- Stainless steel laser etched nameplate-easily read
- 4140 high strength steel for durability
- Cast iron construction for less vibration and longer motor life
- All ratings comply with U.S. Department of Energy (D.O.E) Motor Rule

RELIABILITY

These Crusher Duty Motors continue LEESON's tradition of providing a reliable motor in demanding applications. They are also designed to minimize operating costs by meeting NEMA Premium efficiency standards, and comply with the D.O.E. Motor Rule. LEESON's Crusher Duty Motors will keep your productivity up and your costs down.
