Speedmaster™ Plus Inverter Duty Motors

LEESON's Speedmaster™ Plus line of inverter duty motors is an extension of their current inverter duty products. The product can be used at 1000:1 constant torque in many precision type applications. Designed for high performance inverter or vector duty applications, utilizing Vector Controls for open-loop or Volts/Hertz inverters.

TARGETED APPLICATIONS

- Conveyors
- Machine Tools
- Metal Processing
- Textile Processing
- Test Stands

BENEFITS

- Encoder and brake provisions on opposite drive end - precision operation
- Shaft grounding ring provided 182T frame and larger
- High breakdown torque - maximum torque without a drop in RPM
- Three year warranty - long lasting

FEATURES

- 1/4 thru 30 horsepower
- 3 phase, 60 hertz, TENV
- C Face with Base
- IRIS® inverter duty insulation system
- 1000:1 Constant Torque
- N/C Thermostats
- Ball Bearings
- Encoder provisions on non-drive end
- UL recognized, CSA and CE certified

Vector Duty

Micro Series

Suitable for use with Speedmaster™ Plus Motors
