

**NEMA D FLANGE KITS  
STEEL AND CAST IRON  
FRAME MOTORS**

Includes parts to convert a rigid base mounted motor to NEMA D face with base.

Shaded frame indicates cast iron motor kits for 150 and 170 series motors.

NOTE: The D Flange Kits can *only* be used on rigid base motors. They will not fit NEMA C face motors.

\*Locked bearing

△ Use this kit for 182-4T and S213T motors with catalog numbers 131454 and higher, or with a G prefix. Both open and enclosed motors in this series use the same kits as ventilation is in the frame of the motor.

\* For use with 213T-215T 3450 RPM motors only.

◆ For use with motors having "P" suffix on date code.

▼ For use with motors having catalog numbers 15XXXX, G15XXXX, or 17XXXX.

✳ Not for use with WATTSAYER® motors.

① For use with motors having date codes earlier than May 2003.

② For use with motors having date codes May 2003 and later.

◇ For use with 1140 and 1750 RPM motors only.

③ WATTSAYER® II design, having oversized frame body.
